WIPRO ASSIGNMENT

SDLC TASK-1

Objective : Create a simple use-case diagram for a library management system.

A library Management System is a software that helps manage the daily activities in a library, like issuing books and managing members.

There are two main actors in this system ->

- Librarian -> Manage book check-out
- Member -> Borrow and return book

Main use case include :

- Check out Book - Done by both Librarian and member.
- Return Book - Performed by the member.
